

BIRMINGHAM GARAGE & INDUSTRIAL DOORS LTD

flexibility is our strength

COVID 19 – ENGINEERS ON SITE PROTOCOL

ARRIVAL ON SITE

Full PPE will be used on site

70% Alcohol Hand Sanitiser will be applied before starting work

All engineers will wear GLOVES

All engineers will wear FFP3 Face Masks

2.0mtrs distance from all others to be maintained at all times

ON COMPLETION OF SITE WORK

All PPE will be removed from site, and disposed of in our own Van receptacle, this will include, any paper products, as well as gloves, face masks and if required and used disposable overall.

70% Alcohol Hand Sanitiser will be applied on completion of work.

Our engineers will not be asking for signatures on any of our paper work; however the documents will be marked as COVID 19, for ease of traceability for invoicing.

Our engineers will abide by any of our clients own site rules.

All of the above will also apply to any of our Domestic Garage Door Customers

In these unprecedented times Birmingham Garage & Industrial Doors Ltd will work with you to keep everyone safe.
